🟢 Ready for dispatch within 1-2 working days. Delivery time approx. 3-5 working days!

Product information

HEL-Performance® Handlebar Brake Pump PB-1 (Pullbrake) 13mm Piston Diameter

We're continuing to move forward with new products from HEL Performance.

Next, we're introducing the new handlebar brake pump.

It's also sometimes called a "scooter brake" or, in English, a "pullbrake."

- The PB-1 is already all the rage in some circles
- The pump comes with a handlebar clamp that allows you to adjust the pump's position to suit your personal needs.
- The clamp is attached directly to the handlebar
- The lever spacing can be easily adjusted at any time, just like with a radial brake pump (adjustment wheel)

Wheelie and slide control made easy!! ?? !!

It is currently available with 10 mm, 11 mm, or 13 mm piston diameters

The housing, lever, and clamp are black anodized

Both the housing and the lever are milled from solid stock at HEL Performance in Exeter (UK) using brand-new CNC machining centers.

Weight: Approx. 275 grams

Material : Housing / Lever = 6082-T6 aluminum, machined from solid stock

Pistons and screws = stainless steel

Housing: black anodized

Lever : black anodized

Clamp: Black anodized

Scope of delivery:

1 x handlebar brake cylinder with brake lever and handlebar clamp for 22mm handlebar tube

1 x M10x1.00 stainless steel hollow screw with copper O-rings

Installation/Maintenance Instructions

Accessories (not included): expansion tank, connecting hose

#WhatsStoppingYou

Note: HEL Performance brake pumps and calipers are not compatible with Castrol's SRF Racing brake fluid! Using this brake fluid may cause seals to fail under certain conditions.

available options

Brake fluid
