

Product information

HEL PERFORMANCE CNC hand brake pump MK-1

Art.Nr.: HEL-HTB-1

540,00CHF / pcs.

incl. 8,1% VAT plus 12,00CHF DHL-Shipping

🟢 Ready for dispatch within 1-2 working days. Delivery time approx. 3-5 working days!

Product information

HEL-Performance® thumb brake pump TB-1

(Article is discontinued. Successor is the new thumb brake pump MK-II, handlebar mounting)

We are continuing with new products from HEL Performance.

Next up is the new radial thumb brake pump.

- The TB-1 is both tricky and ingenious.
- The many adjustment options should leave nothing to be desired in terms of customization.
- The clamp is aligned in the desired position and attached to the fork.
(NOTE: The clamp does not have a joint as shown, but is a one-piece clamp.
The fork or triple clamp must be loosened accordingly for installation).
- The lever distance can be conveniently adjusted at any time as with the radial brake pump (adjustment wheel)
- The lever has a joint that can be used to position the end of the lever higher or lower.
- In addition, the end of the lever is in two parts. This allows you to adjust the length of the lever yourself.

Thumbs, what more could you want !!! ?? !!

It is available in two versions:

- a) 13mm piston diameter, nickel-plated housing
- b) 13mm piston diameter, black anodized housing

The lever itself is always supplied in black anodized.

The clamp ([one-piece, without joint](#)) for attachment to the fork can be selected in the following sizes/diameters, and at no extra charge when ordering:

40 mm, 41 mm, 42 mm, 43 mm, 44 mm, 45 mm, 46 mm, 47 mm, 48 mm, 49 mm,
50 mm, 51 mm, 52 mm, 53 mm, 53.5 mm, 54 mm, 55 mm, 56 mm, 57 mm, 58 mm

Both housing and lever are milled from solid material on the brand new CNC machining centers at HEL Performance in Exeter (UK).

Weight : Approx. xxx grams (info to follow)

Material : Housing / lever = 6082-T6 aluminum, machined from solid

Piston and screws = stainless steel

Housing : nickel-plated or black anodized

Lever : Anodized

Scope of delivery:

- 1 x thumb brake cylinder with brake lever. Clamp for attachment to the fork tube, assembly/maintenance instructions.
- 1 x stainless steel banjo bolt M10x1.00 with copper sealing rings

Accessories (not included in the scope of delivery) : Expansion tank and connection hose

Note on delivery time: Depending on which version you order, the delivery time may be slightly longer. We will inform you in any case! In urgent cases, please check availability and delivery time with us in **advance**. Thank you.
