

Product information

HEL Steel Braided Hose Kit, custom-made, 5-piece set, 5-piece T-fitting + 2 elbow fittings for STK

Art.Nr.: HEL-EL-5-TE-STK

265,00CHF / pcs.

incl. 8,1% VAT plus 12,00CHF DHL-Shipping

🟢 Ready for dispatch within 1-2 working days. Delivery time approx. 3-5 working days!

Product information

HEL-Performance Stainless Steel Flexible Hose!
Custom-made to your specifications!

1 x 3-piece set with T-fitting, 2 x single hoses. E.g., for use with quick-disconnect couplers on the hoses leading to the brake caliper.

Construction: Stainless steel-sheathed PTFE hose assembly, universally customizable to your specifications! **Comes with a parts certification!**

Whether you need the line for a vehicle, a machine, or another application, we'll manufacture the right line exactly according to your specifications.

For use on motor vehicles, you will receive a DEKRA parts certificate.
An installation inspection may be required.

When ordering, please specify **the desired hose color, **the connection type**, and **any necessary mounts**, as well as the key numbers for 2.1 and 2.2, or HSN / TSN from the vehicle registration certificate, and—just to be safe—the vehicle details (make, model, type, year of manufacture) .**

You have 14 cable colors to choose from at no extra charge:

Transparent, Carbon Look, Black, White,

Gold Look, Red-Transparent, Red, Orange,

Yellow, Green, Blue-Transparent, Blue,

Transparent-Purple, Pink

Additional colors are available upon request. Please contact us with your color preference.

You can twist the connectors on the finished cable for a twist-free installation—anytime!

Product information

Banjo connector / ring eye

H692-03C-xx = straight

H693-03C-xx = 20° angled

H693-03C-xx-RB = bent 20° downward / 20° to the right

H693-03C-xx-LB = 20° downward / 20° left-bent

H694-03C-xx = 45° bent

H697-03C-xx = 70° bent

H699-03C-xx = 90° bent

H695-03C-xx = 20° bent sideways

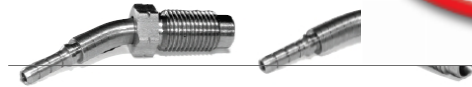

H699-03C-xx-EXT = 90° bent to the side, long shank

Simply replace -xx with the corresponding size: 10, 11, 12, 08, and 06 mm.

Example: H692-03C-10 = 10 mm, straight

Product information

external thread, movable screw

with double sealing cone: convex (outer cone) / concave (inner cone) (for 3/8" UNF, concave only). Can also be supplied angled, bent up to 90°. Simply specify the required angle.

H652-xxC = straight
H673-xxC = 45° bent
H674-xxC = 90° bent

Simply replace -xx with the corresponding thread size

-03 = 3/8" x 24 UNF
-18 = 1/8" x 28 BSP
-31 = M10 x 1.00
-32 = M10 x 1.25

£

internal thread, floating nut

with double sealing cone: convex (outer cone) / concave (inner cone) (for 3/8" UNF, only concave; for 1/8", only convex). M10x1.00 and x1.25 can also be supplied in angled versions, bent up to 90°. Simply let us know the required angle. SW 13

H650-xxC = straight
H653-xxC = bent at 45°
H654-xxC = 90° bent

Simply replace -xx with the corresponding thread size

-03 = 3/8" x 24 UNF
-18 = 1/8" x 28 BSP (H650 only)
-31 = M10 x 1.00
-32 = M10 x 1.25

Example: H650-31C = M10 x 1.00, straight

Product information

internal thread, sliding nut, with NUT

with double sealing cone: convex (outer cone) / concave (inner cone); (for 3/8" UNF, concave only).

M10x1.00 and x1.25 can also be supplied in an angled version, bent up to 90°. Simply let us know the required angle. SW 17

H663-xxC = straight

H663-xxC-45 = bent at 45°

H663-xxC-90 = 90° bent

Simply replace -xx with the corresponding thread size

-03 = 3/8"x 24 UNF

-31 = M10 x 1.00

-32 = M10 x 1.25

Example: H663-31C = M10 x 1.00, straight

I

pped

Internal thread, movable nut, stepped, with groove

with double sealing cone: convex (outer cone) / concave (inner cone),

Can also be supplied bent at angles of up to 90°. Simply let us know the required angle. SW 17

H675-31C = straight

H675-31C-45 = bent at 45°

H675-31C-90 = bent 90°

Product information

Internal thread, sliding nut, double-stepped, with NUT

with double sealing cone: convex (outer cone) / concave (inner cone), SW 17

H663-31C-VAG = straight, double-stepped

External thread, fixed

with double sealing cone: convex (outer cone) / concave (inner cone), (for 3/8" UNF, concave only), and sealing surface for copper sealing ring! SW17

H657-xxC = straight

H658-xxC = straight, extra-long

H659-03C = 3/8", straight, long

H669-31C = M10x1.00, straight, long

H669-32C = M10x1.25, straight, long

Simply replace -xx with the appropriate thread size

-03 = 3/8" x 24 UNF

-31 = M10 x 1.00

-32 = M10 x 1.25

Example: H657-31C = M10x1.00, straight

Product information

internal thread, fixed

with sealing cone, SW17

H660-31C = straight, concave

H660-31C-SQUARE = straight, concave

Product information

You can find Stahlflex wiring kits for many vehicle models and configurations at and on our website motorrad.helperformance.de (please click the link)

For many models, we offer various routing options:

OEM, like the original (standard kit):

The brake lines match an original replacement part in length, number, and routing.

Alternatively, Full Length:

Two lines routed directly from the brake master cylinder—one to the right and one to the left—to the brake calipers.

Alternatively, Over the Mudguard:

One line runs directly from the brake master cylinder to the right brake caliper; the second runs from there over the mudguard to the left brake caliper.

HEL Performance is (to the best of our knowledge) currently the only manufacturer that has an ABE certification for hose kits using this so-called “alternative routing method.” Beware of mislabeled hoses that do not have an ABE certification. Your safety is at stake!

Tip: Request the corresponding ABE certificate for the line kit, including the scope of use!

HEL Performance Stainless Steel Flexible Brake Line

- eliminates the spongy feeling in the brake lever/pedal
- more direct and precise braking response
- No line expansion at high temperatures
- Lower maintenance costs for the braking system
- Motorsports-proven technology
- Stainless steel fittings and hollow screws
- Stainless steel-sheathed Teflon lines
- Excellent abrasion resistance and corrosion protection
- Genuine HEL quality, as used in MotoGP, WSKB, BSB, and the IDM!

The fine line between victory and defeat

Every kilometer of a race track makes it clear just how important a well-balanced braking system is. Perfect control gives you the confidence you need, because the difference between a good rider and an average one is that one has their speed under control, while the other does not. That’s why we here at HEL Performance manufacture the best lines, giving you the control you need for peak performance.

Every HEL Performance line is assembled in-house using the best stainless steel fittings and then crimped.

With us, you’ll find the right brake line kit for your vehicle and get exactly what you expect: high-quality materials, excellent performance, and visually stunning brake lines.

HEL brake lines eliminate the spongy feel associated with rubber lines.

We use exclusively stainless steel components for all parts of our lines—unlike other manufacturers, who use steel fittings that rust over time and pose a safety risk.

HEL Performance - Always No. 1 - What’s Stopping You?

What’s Included:

Stainless steel-braided brake lines with stainless steel fittings Parts certificate (Please specify vehicle type (HSN / TSN))

Note: The photos shown are examples and do not depict the brake line kit for the specified vehicle! When placing your order, you can specify your preferred hose color. The lines will then be custom-made “fresh” for you according to your preferences and specifications!
